

Are you the designated lab chemical hygiene officer (CHO), responsible for the Chemical Hygiene Plan (CHP) and/or responsible for ensuring safety in your lab?

This message is for you!

CHOs: STAY COMPLIANT! ENHANCE YOUR EXPERTISE!

Join us for an essential training session exclusively for lab designated CHOs!

This program will:

Break down the regulations that matter most to your role

Show you how compliance is achieved at our university

Provide practical tools and strategies to support safe, compliant labs

Connect you with peers and campus experts for shared learning

Whether you're new to the role or a seasoned CHO, this training will give you the confidence, clarity, and resources you need to safeguard your lab community while meeting institutional and regulatory expectations.

Space is limited! Reserve your spot today by sending an email with your preferred session to:
labsafety@uky.edu
