Welcome to LabArchives Inventory! Get started organizing your lab with 4 simple steps.
1 Customize your inventory types

Review and modify the default types.

Pro tip: Customize your types to streamline bulk import.

2 Setup your locations

Customize your storage locations.

Pro tip: Use unique names for each top-level location.

3 Add Items

Add items to your inventory individually or via the inventory Import Template.

4 Add Users

Simply enter your lab members emails to add them to your inventory.

Pro tip: Customize your types and locations before inviting your team.
